

The UL Ti MATE® range from underwater lights limited™

This magnificent 223ft Superyacht is the latest to be installed with our Original UL Ti MATE® through-hull submersible lights. Manufactured to exacting standards to meet International Type Approvals, these lights are **only** available from us at **underwater lights limited™** or from one of our authorised distributors.

Don't be fooled by imitations... if it doesn't say "limited" on the box, it's not one of our lights.

Come and see us at:

Fort Lauderdale -
Yacht Builders' Pavillion

IBEX in Miami - stand 234
