

# The UL Ti MATE range from underwater lights limited™

Photograph courtesy of Klaus Jordan

This magnificent 223ft Superyacht is the latest to be installed with our Original UL Ti MATE through-hull submersible lights. Manufactured to exacting standards to meet International Type Approvals, these lights are only available from us at **underwater lights limited™** or from an authorised distributor.

Don't be fooled by imitations... if it doesn't say "limited" on the box, it's not one of our lights.

UL Ti MATE 75-SA  
S00330-SA
