

QT-LED

DEEPSEA RETRO

KEY FEATURES:

- 
Maintenance
 Inside the hull
- 
Control Option
 On/Off
- 
Driver
 Integral
- 
Growth Resistant Lens
 N.A
- 
Power
 12-24 VDC
- 
Installation
 Inside Hull
- 
Test pressure -
 N.A
- 
Hull Material
 N.A
- 
Boat Size
 N.A
- 
Lumens
 10,000 & 14,000
- 
Kelvin
 6500
- 
Beam Angle
 100 Degrees

- The DeepSea Retro LED underwater light can be fitted into existing DeepSea thru- hull lights, allowing an easy upgrade to LED without changing the hull fitting or hauling the boat.
- The DeepSea Retro LED is available with Blue or white LED on 12/24 vdc power and 10000 lumens or with white LED on 24vdc power only and 14000 lumens. The LEDs are available with an angle of 100 degrees through a flat lens providing a perfect spread of light.
- If you are using the original AC power supply, we would recommend to use the Mean Well ELG-150 or a similar specified product. The 12/24vdc output must be fused.

DEEPSEA RETRO LED

THRU-HULL LED SERVICED FROM INSIDE

MOUNTING

Hull Material	N.A
Boat size	N.A
Beam Angle	100 degree
Installation Angles	N.A

TECHNICAL

Lumens	up to 14,000 lumens
Kelvin	6,500
Typical LED Life Expectancy	40,000 hrs
Operating Voltage	10,000 lumens @ 12/24 VDC 14,000 lumens @ 24 VDC only
Driver Type	Integral
Current/Amp Draw	10,000 lumens 7-3.5A 14,000 lumens 4 A
Control Options	On/Off
Bonding	Locking Ring

PHYSICAL

Hole Cut Out	N.A
Length of Fixture	N.A
Diameter of Fixture	N.A
Removal Space Required	170mm (6.11-16")
Total Weight	1KG (2.2lb)
Cable Length	2 meters (6ft)
Max Hull Thickness	N.A
Face Material	N.A
